SCOTTI'S ORIGINAL SPRINGS®

A smooth bourbon for the everyday drinker

Beverage Dynamics states, "We see no reason for this movement towards quality in younger whiskeys to slow anytime soon."

A hint of eucalyptus and coco on the nose going into a front forward of butterscotch, caramel, and a touch of aniseed on the back end with a linger of citrus and coco aftertaste. The finish rounds out nicely with a mixture of butterscotch and aniseed.

Two-year aging with rich characters of a much older bourbon

CALIFORNIA YELLOW CORN	**75%**
CALIFORNIA RYE	**21%**
CALIFORNIA BARLEY	**4%**

Scotti's Original Springs Private Stock recently won Double Gold at the 2023 SIP Awards

Scotti's Original Springs® Straight Bourbon Whiskey captures the essence of California's innovative spirit while staying true to the traditional bourbon style.

While most bourbons are produced in Kentucky, this California bourbon is made from locally sourced corn, rye, and barley and aged for two years in northern California creating a distinct flavor profile. We augmented the flavor with a mash bill high in corn to provide a smooth sweet taste.

Experience the allure of this exceptional bourbon, a testament to the thriving whiskey scene beyond Kentucky's borders.
